SUMMARY

Versatile web developer adept at crafting exceptional solutions motivated by curiosity and technical prowess. With a track record of successfully managing and delivering diverse projects including websites, marketing collateral, and databases, seeking to join an innovative team where impactful contributions can be made and skill enhancement can continue.

WEB DEVELOPMENT EXPERIENCE

PORTFOLIO WEBSITE

Languages and Libraries Used: HTML and CSS

- Built a responsive website to showcase my professional portfolio that includes the projects created throughout my Full-Stack Web Development Program, to my professional network and potential employers. Click [here](#) to view my site.

MYFLIX APP

Languages and Libraries Used: HTML, CSS, JavaScript, Node.js, SQL, Mongoose, React, REST API

- Created the server-side and client-side components of a "movies" web application to provide users with access to information about different movies, directors, and genres from a select list of baseball themed movies. Click [here](#) to view the app.

WORK EXPERIENCE

MARKETING COORDINATOR

RDG Planning & Design / Denver, CO / September 2023 – Present

- Responsible for leading multidisciplinary teams in pursuit of new work through the planning and production of marketing and presentation materials.
- Keep teams apprised of updates and deadlines through effective communication.
- Consistently meeting goals for submission to clients and using problem solving skills to overcome challenges.

BRAND SPECIALIST

WRNS Studio / San Francisco, CA / July 2019 – August 2023

- Maintained promotional assets, built company project database through data collection, and led photography coordination of completed work.
- Managed the firm's Wordpress website, built the firm's foundation Squarespace website, updated websites with the latest content, and worked with vendor to enhance user experience and improve SEO.

PROJECT MANAGER

Ware Malcomb / San Francisco, CA / May 2018 – July 2019

- Responsible for creating and strengthening relationships with clients, sourcing consultants, and developing relationships with local vendors.
- Collaborated with and oversaw design and production teams using Basecamp to ensure the team was organized, track progress, and provide status updates.
- Managed multiple projects of various scales at a time from beginning to project completion.
- Provided training and mentorship to junior staff.
